INCOSE Releases 2023 Mid-Year Impact Statement

SAN DIEGO (September 2023) – *The International Council on Systems Engineering (INCOSE) has released their Mid-Year Impact Statement which highlights the continued growth of the organization and accomplishments and significant milestones achieved in the previous six months.*

INCOSE, a global leader in promoting and advancing systems engineering, has continued its commitment to excellence in fostering collaboration, innovation, and knowledge exchange within the systems engineering community. The Mid-Year Impact Statement offers an overview of the organization's achievements during the first half of 2023, serving as a testament to its dedication to advancing systems engineering worldwide.

Key highlights featured in the Mid-Year Impact Statement include:

- **Membership Growth**
- **The value of INCOSE Certification**
- **A summary of the International Symposium 2023**
- **The successful launch of Calling All Systems webinar series**
- **New products and publications**

Marilee Wheaton, INCOSE President and Fellow, said "INCOSE remains dedicated to our mission of advancing systems engineering on a global scale. Our Mid-Year Impact Statement reflects our commitment to fostering collaboration, knowledge exchange, and innovation within the systems engineering community. As we celebrate our achievements in the first half of 2023, we look forward to continuing to empower systems engineers worldwide to address the complex challenges of our time."

Notes to Editors:

About the International Council on Systems Engineering

The International Council on Systems Engineering (INCOSE) is a not-for-profit membership organization that promotes international collaboration in systems engineering practice, education, and research. INCOSE's mission is to "address complex societal and technical challenges by enabling, promoting and advancing systems engineering and systems approaches." Founded in 1990, INCOSE has more than 65 chapters and over 21,000 members and associates worldwide. For additional information about INCOSE visit www.incose.org.
